

Keystone Photography Club

The purpose of the KPC is for students to enjoy and gain expertise in the exciting art of photography and share their visions with others.

The Keystone High School Photography Club encourages members to share, explore and enjoy the art of photography.

This private club provides visibility for Keystone student photographers from around the world. Members will enhance their creative, technical and communication skills and gain a sense of tolerance and understanding for diverse viewpoints.

Our private website address is:

<http://groups.yahoo.com/group/KeystoneCameraClub>.

Students enjoy viewing and commenting on each other's photographs. We have real time on-line meetings to constructively critique photographs, communicate with other student photographers and increase our photographic skills.

Here some recent themes:

- Water
- Trees
- Dogs
- Unusual Points of View
- Nature Closeups
- Texture
- Self-Portraits
- Reflections
- Winter

We have monthly contests with a variety of themes and two categories, straight (from the camera) and manipulated. Entries will be posted.

Joining the Keystone Photography Club:

Those who express interest in joining the club are sent two (2) forms that must be returned before membership can be processed.

In addition to monthly contests, we also discuss photography tips, image editing, and have periodic Blackboard Collaborate MEETINGS where feedback, instruction and critiques are featured.

If you are a current student and want to learn more about the Keystone Photography Club contact the Keystone Photography Club Advisor at:
